Francois Sonnet
Founder

BEST TEAMEVER

With Years of hard work & keep looking for Right Person for Right job. We have assembled a team of professionals, each specialized in a particular field of like-minded people who like to explore and analyze each & every moment of market, so they can takeout every single penny from successful trade, the team that build for successful hedge funding trading to provide optimal results.

DECENTRALIZATION

What does “Decentralized” Means? What are the Advantage and what are the benefits?

Decentralized marketing is created with an automated contract that offers you maximum security and sustainability. A smart contract is an automatic execution algorithm.

Smart Contract like Cryptocurrencies, are decentralized, they work strictly according to the underlying program, without the possibility of subsequently changing the defined execution. The code that contains all logic of the contract expiration is on the blockchain and all the calculation are provided by million of computer through world

WHAT IS BLOCKCHAIN & IT'S FUTURE

By allowing Digital information to be distributed but not copied, blockchain technology created the backbone of a new type of internet. originally devised for the Crypto Currency the tech community is now finding other potential uses for the technology

1. Banking
2. Cyber security
3. Education
4. Voting
5. Forecasting
6. Stock trading
7. Insurance
8. Healthcare
9. Energy Management
10. Government Records
11. Retail
12. Charity
13. Human Resources
14. Law Enforcement

WHAT IS MINING?

Mining is the process by which transaction are verified and added to the public ledger, known as a blockchain, and also the means through which new crypto currency are released

Requirements for setup mining:

- A) Expensive Hardware & Internet Feasibility.
- B) Usually High Electricity rates & Power backup
- C) Environment challenge for cooling.
- D) Need massive software knowledge

WHAT IS STAKING?

Staking is the opportunity for those who want to earn rewards. Staking can be a complicated idea or a simple one depending on how many levels of understanding you want to unlock. For a lot of traders and investors, knowing that staking is a way of earning rewards for holding certain amount of Token for Fixed time period.

Many long-term crypto holders look at staking as a way of making their assets work for them by generating rewards, rather than collecting dust in their crypto wallets.
